

### Product Overview

Phase 2 Microwaves Ltd offers a range of standard coaxial Directional Couplers in N Type, SMA & 2.92mm configurations covering bands from 2 to 40GHz.

These Directional Couplers offer cost effective solutions to many industry requirements.

In addition to these standard Couplers Phase 2 Microwave Ltd can also offer bespoke designs optimised to meet customer particular requirements.

To discuss these requirements in more detail contact

## Key Specification

Model Number	007534
Operating Frequency	18 - 40GHz
Coupling	30dB +/-1.5dB
Insertion Loss	< 1dB (Inc. coupling loss)
VSWR	<1.6:1
Directivity	>7dB
Power Handling	30W
Connectors	2.92mm Female

## Environmental

Temperature Range	-40 to +85 Degrees C
-------------------	----------------------

## Mechanical

Housing Material	Aluminium
Interface Control Drawing	007534-ICD
RoHS	Compliant
