

Product Overview

As part of their Directional Coupler product range Phase 2 Microwaves Ltd offer a range of standard coaxial 3dB 90 Degree Hybrid Couplers in SMA & 2.92mm configurations covering bands from 0.4 to 40GHz.

These couplers offer cost effective solutions to many industry requirements.

In addition to these standard Couplers Phase 2 Microwave Ltd can also offer bespoke designs optimised to meet customer particular requirements.

To discuss these requirements in more detail contact

Key Specification

Model Number	007537
Operating Frequency	0.4 - 6GHz
Coupling	3dB
Amplitude Tracking	+/-0.8dB @ 0.4 – 0.5GHz +/-0.6dB @ 0.5 – 6GHz
Phase Tracking	+/-5 Degrees
Insertion Loss	< 1.8dB
VSWR	<1.35:1
Isolation	>18dB
Forward Power Handling	30W
Connectors	SMA Female

Environmental

Temperature Range	-40 to +85 Degrees C
-------------------	----------------------

Mechanical

Housing Material	Aluminium
Interface Control Drawing	007537-ICD
RoHS	Compliant
