

Product Overview

As part of their Directional Coupler product range Phase 2 Microwaves Ltd offer a range of standard coaxial 3dB 90 Degree Hybrid Couplers in SMA & 2.92mm configurations covering bands from 0.4 to 40GHz.

These couplers offer cost effective solutions to many industry requirements.

In addition to these standard Couplers Phase 2 Microwave Ltd can also offer bespoke designs optimised to meet customer particular requirements.

Key Specification

Model Number	007538
Operating Frequency	2 - 4GHz
Coupling	3dB
Amplitude Tracking	+/-1.2dB
Phase Tracking	+/-4 Degrees
Insertion Loss	< 0.8dB
VSWR	<1.2:1
Isolation	>22dB
Forward Power Handling	20W
Connectors	SMA Female

Environmental

Temperature Range	-35 to +85 Degrees C
-------------------	----------------------

Mechanical

Housing Material	Aluminium
Interface Control Drawing	007538-ICD
RoHS	Compliant
