

Product Overview

As part of their Directional Coupler product range Phase 2 Microwaves Ltd offer a range of standard coaxial 3dB 90 Degree Hybrid Couplers in SMA & 2.92mm configurations covering bands from 0.4 to 40GHz.

These couplers offer cost effective solutions to many industry requirements.

In addition to these standard Couplers Phase 2 Microwave Ltd can also offer bespoke designs optimised to meet customer particular requirements.

To discuss these requirements in more detail contact

Key Specification

Model Number	007540
Operating Frequency	4 - 40GHz
Coupling	3dB
Amplitude Tracking	+/-1dB
Phase Tracking	+/-8 Degrees
Insertion Loss	< 2.5dB
VSWR	<1.6:1
Isolation	>15dB
Forward Power Handling	20W
Connectors	2.92mm Female

Environmental

Temperature Range	-35 to +85 Degrees C
-------------------	----------------------

Mechanical

Housing Material	Aluminium
Interface Control Drawing	007540-ICD
RoHS	Compliant
