

Product Overview

Phase 2 Microwaves Ltd offers a range of standard coaxial Directional Couplers in N Type, SMA & 2.92mm configurations covering bands from 2 to 40GHz.

These Directional Couplers offer cost effective solutions to many industry requirements.

In addition to these standard Couplers Phase 2 Microwave Ltd can also offer bespoke designs optimised to meet customer particular requirements.

To discuss these requirements in more detail contact

Key Specification

Model Number	007535
Operating Frequency	0.1 - 1GHz
Coupling	40dB +/-1.0dB
Coupling Variation	+/-0.8dB
Insertion Loss	< 0.2dB (Inc. coupling loss)
VSWR	<1.3:1
Directivity	>20dB
Power Handling	50W
Connectors	SMA Female

Environmental

Temperature Range	-40 to +85 Degrees C
-------------------	----------------------

Mechanical

Housing Material	Aluminium
Interface Control Drawing	007535-ICD
RoHS	Compliant
