

Product Overview

Phase 2 Microwaves Ltd offers a range of standard coaxial Directional Couplers in N Type, SMA & 2.92mm configurations covering bands from 2 to 40GHz.

These Directional Couplers offer cost effective solutions to many industry requirements.

In addition to these standard Couplers Phase 2 Microwave Ltd can also offer bespoke designs optimised to meet customer particular requirements.

To discuss these requirements in more detail contact

Key Specification

Model Number	007505
Operating Frequency	0.4 - 6GHz
Coupling	6dB +/-1dB
Insertion Loss	< 2dB (Inc. coupling loss)
VSWR	<1.35:1
Directivity	>12dB (typically 20dB)
Power Handling	30W
Connectors	SMA Female

Environmental

Temperature Range	-40 to +85 Degrees C
-------------------	----------------------

Mechanical

Housing Material	Aluminium
Interface Control Drawing	007505-ICD
RoHS	Compliant
